CHAMIKA DINISURU ADHIKARI

Entry-Level DevOps Engineer Candidate | HNDIT Graduate
Wariyapola, Sri Lanka | +94 77 453 2864 | chamikadinisuru2@gmail.com
LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Higher National Diploma in Information Technology (HNDIT) graduate with hands-on experience in Git and GitHub version control (including the command line), cloud-backed Firebase applications, role-based access control, and real-time monitoring and alerting. Built automated leave-approval workflows in a cross-platform workforce platform and an Arduino-based smoke and fire detection system with automated SMS alerts. Strong problem-solving and teamwork skills, with a keen willingness to learn Linux, Docker, CI/CD pipelines, and cloud platforms in an Intern / Associate DevOps Engineer role.

TECHNICAL SKILLS

Version Control & Tools: Git, GitHub, Git command line (terminal)

Monitoring, Alerting & IoT: Real-Time Sensor Monitoring (MQ-series), Arduino, GSM SMS Alerts, Firebase Cloud Messaging

Access Management & Security: Role-Based Access Control, User Role Management, Firebase Authentication, Secure Admin Dashboards

Databases: MySQL, Relational Databases, Cloud Firestore, Firebase Storage

Programming & Web: JavaScript, PHP, HTML, CSS, Dart, C/C++ (Arduino), REST API Integrations

Mobile, Frameworks & Other: Flutter, GetX, Provider, Flutter Map, Responsive Web Development, Adobe Photoshop, Prompt Engineering

Languages: Sinhala — Native | English — Intermediate

Professional: Troubleshooting, Problem Solving, Teamwork, Attention to Detail, Continuous Learning

EDUCATION

Higher National Diploma in Information Technology (HNDIT) | *2024 - 2026 | Completed*
Institute of Advanced Technological Education (SLIATE), Kurunegala, Sri Lanka

GCE Advanced Level (Commerce Stream) - Sri Gnanodaya National College, Wariyapola | 2022 (2023)

GCE Ordinary Level - Sri Gnanodaya National College, Wariyapola | 2019

PROJECT EXPERIENCE

Staff Sync - Integrated Workplace Platform | *Academic Final Project | Mobile & Web Application*

- Implemented real-time QR-code attendance tracking, automated leave request and approval workflows, and SOS live-location tracking.
- Built a secure, role-based team chat module with Firebase Authentication, Cloud Firestore, and Firebase Cloud Messaging.
- Developed a cross-platform workforce management system for BIG GROW LANKA (PVT) LTD to support core HR operations.

Tech: Flutter, Dart, Firebase (Authentication, Cloud Firestore, Storage, FCM), HTML, CSS, JavaScript, GetX, Flutter Map, GitHub

Smoke & Fire Detection System - IoT Safety Device | *Academic Project*

- Built an Arduino-based emergency system that monitors smoke, fire, and potential gas leaks in real time.
- Integrated MQ-series gas and smoke sensors for continuous environmental monitoring.
- Configured a GSM module to send automated SMS alerts on hazard detection for rapid response.

Tech: Arduino (C/C++), MQ-Series Sensors, GSM Module

OSA Photography - Portfolio & CMS Platform | *Freelance Project*
osaphotography.great-site.net

- Implemented a secure admin dashboard with real-time content updates, dynamic album galleries, and testimonial management.
- Used MySQL to store and manage gallery, testimonial, and admin content.
- Built a responsive, database-driven portfolio website and custom CMS for a professional photography business.

Tech: PHP, MySQL, HTML, CSS, JavaScript, GitHub
